

PipeBevel 220E/360E

**Excellent bevel results
for on-site applications**

PipeBevel 220E/360E

Voltage/Power/Current	220 – 240 V 1400 W 6.1 A
No-Load speed	7000 – 10500 r/min
Blade holder diameter	1.88"
Different bevel angles	30° 37.5° 45°
Speed preselection	

Professional Pipe Beveller for on-site welding applications

Continuous good results for on-site pipe bevelling applications with Exact's PipeBevel you can easily make fast and accurate welding bevels to pipes in a variety of materials. The user interface of the machine is similar to Exact pipe saws, which makes it easy for the operator to adapt after cutting the pipe with any Exact pipe saw. The cutting head of the beveller has 3 cutting tips, each of them having 4 cutting edges to rotate once becoming blunt, so it is economical to use. The cutting heads are available in most commonly used bevel angles (30°, 37.5° and 45°). It is also possible to make different 'tailored' bevel angles if required. There is also a stopper feature, that enables the operator to make similar additional bevels to the same pipe O/D.

PRICE INCLUDES:

PipeBevel beveller, shoulder bag, pipe support x2, instructions, allen key 5 mm, DVD video. **THE CUTTING HEAD and BEVEL TIPS** are separate compulsory accessories.
